# Example Corp A - Annual Report (Form 10-K)

Fiscal Year Ended December 31, 2025

## PART I - BUSINESS OVERVIEW

Example Corp A is a global enterprise software and cloud infrastructure provider founded in 2012.
The Company specializes in secure cloud data platforms, AI-assisted business analytics,
and scalable enterprise resource management solutions.

The Company operates through two primary reporting segments:
1. Intelligent Cloud Platform: Cloud compute infrastructure, managed database services, and enterprise security software.
2. Business Productivity Solutions: Subscription software for workflow automation, financial reporting, and collaboration.

During fiscal year 2025, the Company expanded operations into 12 new metropolitan regions and deepened strategic relatio

### Item 1A. Risk Factors

Our business, financial condition, operating results, and cash flows are subject to various risks:
- Intense Market Competition: Rapid advancements in artificial intelligence and enterprise cloud technologies.
- Infrastructure and Capacity Investments: Expanding data center capacity requires significant capital outlays.
- Cybersecurity Disruption: Security breaches could materially harm customer trust and disrupt services.
- Foreign Currency Volatility: International revenue accounted for 35 percent of total sales in FY2025.

# Item 7. Management Discussion and Analysis (MD&A)

Executive Overview
Fiscal year 2025 was marked by accelerated enterprise cloud adoption. Total revenue grew from .0 million in fiscal year 2024 to .0 million in fiscal year 2025, representing a 20.0 percent year-over-year increase.

Operating Results & Expenses
Operating expenses increased proportionally from .0 million in FY2024 to .0 million in FY2025 (a 20.0 percent increase). Management attributes this rise to three main drivers:
1. Research & Development Headcount: Engineering hiring for autonomous workflow engines and cloud data protection alg
2. Global Sales Channel Expansion: Higher marketing outlays and direct field enablement in Europe and Asia-Pacific.
3. Data Center Lease Commitments: Increased facility fees associated with regional cloud cluster deployments.

Profitability and Margins Analysis
Net income rose from .0 million in FY2024 to .0 million in FY2025, achieving 20.0 percent growth. However, despite top-line expansion, our Net Profit Margin remained constant at 15.0 percent in both fiscal years (a change of 0.0 percentage points). Because operating expenditures grew at the exact same 20.0 percent rate as revenues operating leverage was neutral during the investment cycle.
